PROFESSIONAL SUMMARY

Data Engineer with 4+ years of experience (6+ years overall) designing and optimizing scalable data pipelines and ETL workflows using SQL Server, SSIS, and Azure ecosystem. Experienced in batch processing, data replication, and data warehousing concepts, supporting business-critical reporting systems. Strong expertise in query optimization, performance tuning, and CI/CD pipelines using Azure DevOps. Hands-on exposure to Python and modern data processing tools, with a focus on building reliable and scalable data platforms.

TECHNICAL SKILLS

- Data Engineering: ETL, ELT, Data Pipelines, Batch Processing, Data Warehousing, Data Modeling, SCD, Incremental Loads
- Cloud & Tools: Azure Data Factory (ADF), Azure DevOps, Azure Fabric, CI/CD, Git
- Data Integration: SSIS, Qlik Replicate, Qlik Compose
- Databases: SQL Server, T-SQL, PL/SQL
- Programming: Python, SQL, C# (.NET)
- BI Tools: Tableau
- Workflow & Orchestration: SSIS, Azure Pipelines
- Additional Skills / Exposure:
 - PySpark (Learning – hands-on practice)
 - Apache Airflow (Fundamentals – DAG concepts)
 - Data Lake concepts (Azure Data Lake / Storage)

PROFESSIONAL EXPERIENCE

Wolters Kluwer ELM Solutions, Chennai

Oct 2022 – Present

Data Engineer

- **Data Pipeline Architecture:** Designed and maintained ETL data pipelines using SQL Server and SSIS, supporting data processing for 50+ clients with 99.9% availability.
- **Replication Management:** Implemented data replication workflows using Qlik Replicate and Qlik Compose, ensuring near real-time data availability across multiple systems.
- **Performance Tuning:** Optimized T-SQL queries and execution plans, improving data processing performance and reducing pipeline latency by up to 30%.
- **Business Intelligence:** Developed Tableau dashboards supporting reporting needs for 50+ clients, enabling data-driven decision-making.
- **DevOps & CI/CD:** Implemented and supported YAML-based Azure DevOps pipelines for staging and production deployments, ensuring stable releases and minimizing downtime.

Tata Consultancy Services, Hyderabad

May 2019 – Oct 2022

System Engineer

- **Backend Development:** Developed and maintained backend application logic using C#/.NET, focusing on system stability and workflow automation for enterprise clients.

- **Performance Engineering:** Enhanced system response times and navigation efficiency through Sitecore optimization, resulting in improved user experience.
- **Security Compliance:** Identified and remediated security vulnerabilities (such as XSS) by implementing rigorous sanitization protocols (DOM Purify), ensuring adherence to global data security standards.
- **Quality Assurance:** Conducted comprehensive manual testing to validate performance metrics and security compliance prior to production deployment.

EDUCATION

VR Siddhartha Engineering College

2019

B.Tech, Computer Science & Engineering (CSE)

- CGPA: 8.45/10

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- University of Michigan (Coursera): Python Data Structures

ACHIEVEMENTS

- **Competitions:** Semi-Finalist in Tech Gig Code Gladiators 2021;
Won 3rd Prize in Engineers' Day Competition across the CSE department (2018).
- **Participation:** Participated in the Cybersecurity Research Teaser Internship at IIIT Hyderabad (April-May 2021).
- **Academics:** Ranked in Top 5% for Data Structures & Algorithms Using Python (NPTEL).
